EDISON RETAIL SOLUTIONS SELECTS YOUNG SHIN GIANT 250SIH MODEL DIECUTTER FOR NEW JERSEY HQ

Schaumburg, IL (February 16, 2017) - Phillip Mack, National Sales Manager of Young Shin USA Limited, a wholly-owned subsidiary of South Korean-based Young Shin Industries, is pleased to announce that North Bergen, New Jersey-based Edison Lithograph & Printing Corp. will add a new Young Shin Giant 250SIH Model Diecutter with EZ-Feeder featuring lead edge removal and heat capability to augment the needs of its expanding client base. Edison is a privately-held company founded in 1958. The unit will serve the firm's Edison Retail Solutions division, a leader in in-store marketing for the retail industry serving numerous global brands and retailers throughout North America's largest companies in a variety of industries including retail, product manufacturing, entertainment and packaging.

Edison selected the Young Shin Giant 250SIH Diecutter with EZ-Feeder due to its large format capability, quick make-readies and high-speed production yields. The unit is also outfitted with heat to allow thick, plastic materials to be cut cleanly to meet specific client requirements. The Giant 250SIH Diecutter can accommodate E, B, A, AB Flute corrugated and chipboard from 8pt to 0.43". The Giant's precise center line technology provides easy and rapid set-up of the die board using the unit's center block. Thin sheets feed smoothly and effortlessly with the GIANT's enhanced feeding and conveying systems. The innovative air floating device allows easy withdrawal of the cutting plate for optimum operator efficiency. The Giant 250SIH offers a wide range of sizes up to 98.42" x 66.92" to suit the needs of a wide variety of production requirements. The EZ-Feeder adds further productivity enhancements since substrates can be easily stacked and automatically fed into the diecutter.

The Giant 250SIH with EZ-Feeder is designed and manufactured at Young Shin Industries in South Korea utilizing the most sophisticated electronic components available on the global market. The Giant

250SIIH delivers precise large format diecutting, enhanced automation and a low cost of ownership. Kevin Neureuter, a member of Corporate Management at Edison remarks, "The addition of the Young Shin Giant 250SIIH further demonstrates our firm's commitment to investing in high-quality equipment that advances our business growth and enhances our employee productivity."

Young Shin's North American sales and service office is led by Mack, who added, "We are delighted that this growing division of Edison Litho, one of the most prestigious establishments within the industry, has chosen the Giant 250SIIH for its headquarters operations. We are certain that the advantages provided by the new diecutter will provide greater flexibility, increase production and offer benefits to overall improved productivity."
